120 Chart Mystery

Picture Fun!

Thank you for downloading these 120 Chart Mystery Pictures!

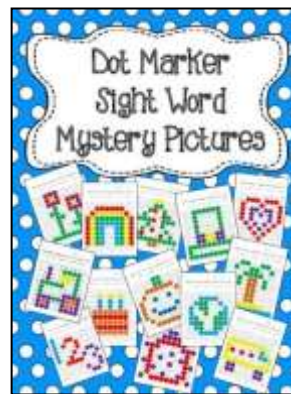

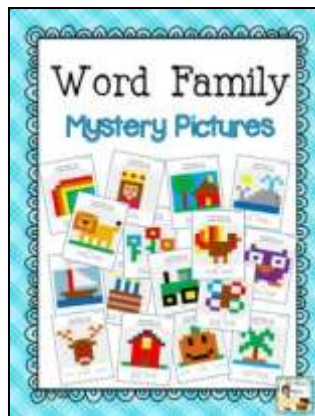

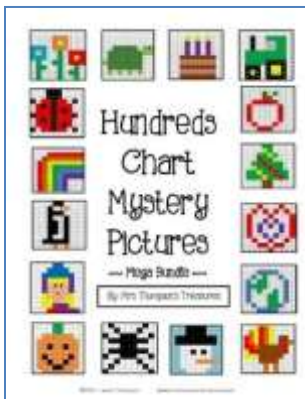

I hope your students enjoy them!

*There are 2 work pages for differentiation! The first has the numbers already filled in, the second requires the student to write numbers 1-120, and then fill in the mystery picture!

*This can also be used as a listening activity where the teacher reads the colors and numbers aloud as the students complete the picture!
