

Spinning Place Value:

Spin the spinner three times.
Use the place value blocks to
make the number you spin.

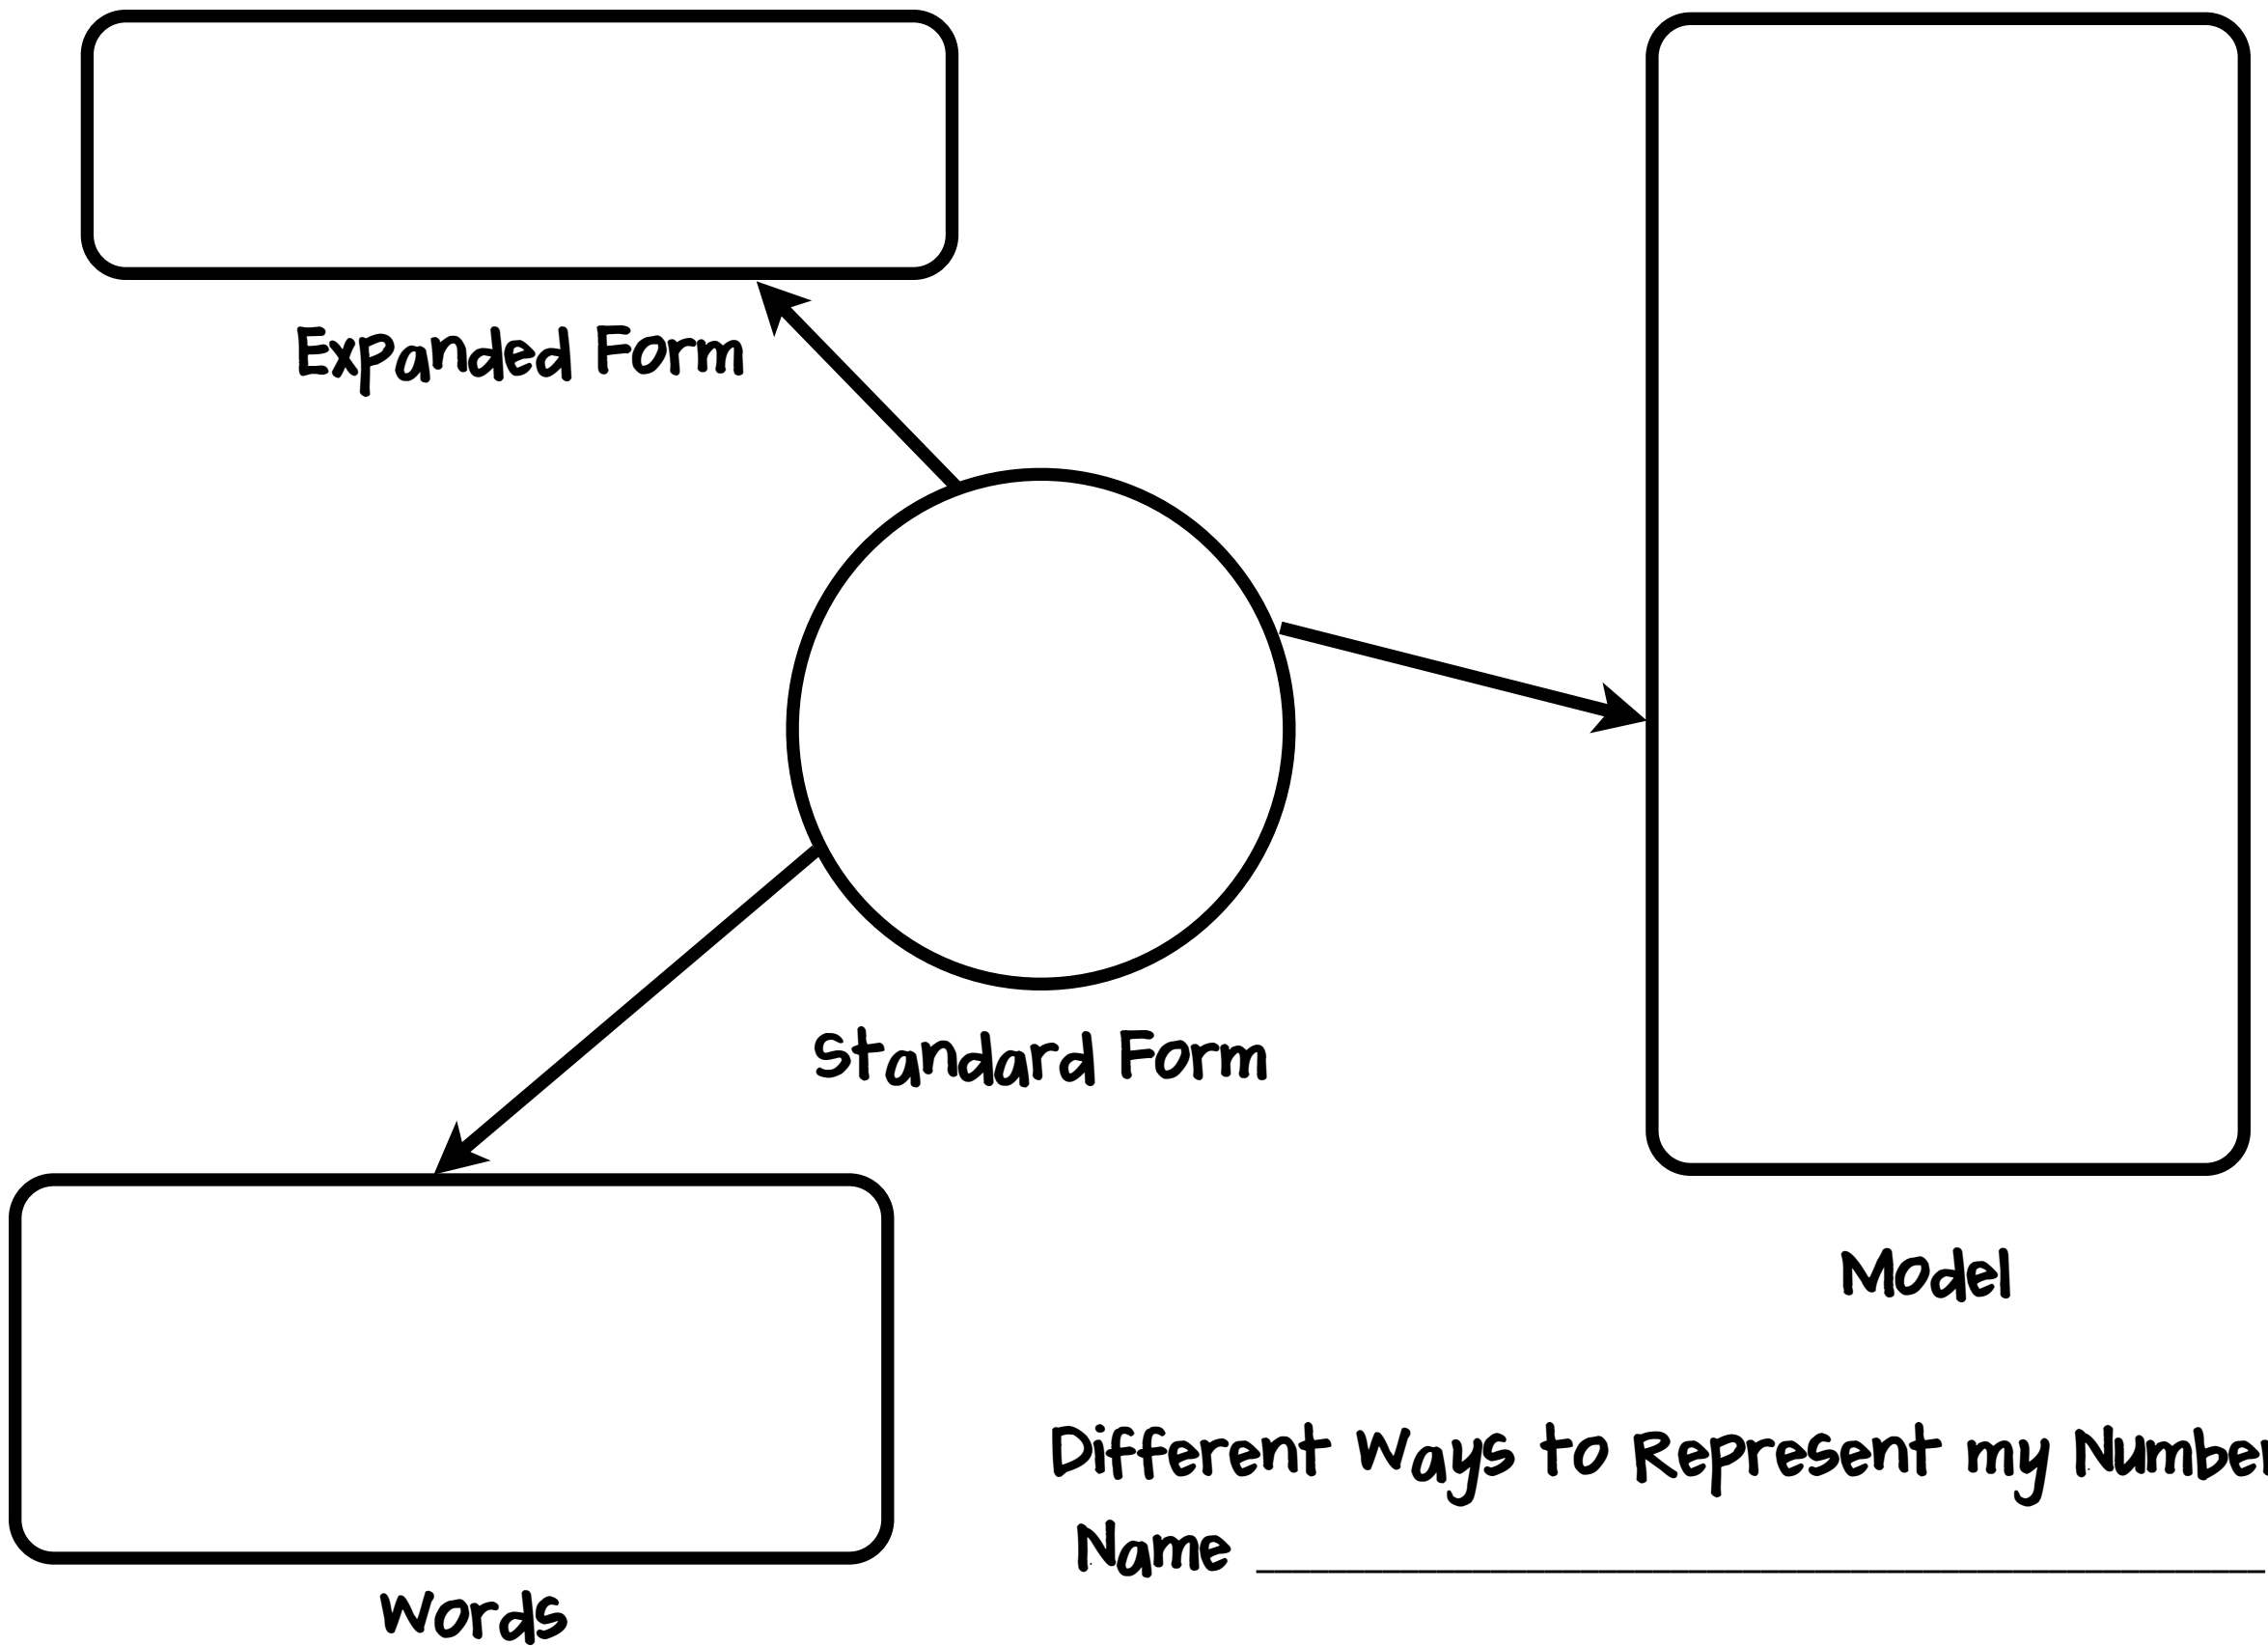

Write the number in standard
form, in words, and in
expanded form. Draw a model
of the number. Make a
graphic organizer to show
your answers.

Second Grade Common Core Math
Standards

NBT.2.3 Understand place value. Read
and write numbers to 1000 using base-
ten numerals, number names, and
expanded form.

Teachers:

Place a number spinner, place value blocks, and paper in the math station.

Different Ways to Represent my Number
